

Export/Import License Acquisition

Streamline Export and Import License Acquisition and Management with Automated Workflows.

Descartes OCR's Global EASE™ for Licensing Acquisition is a comprehensive solution designed to address licensing requirements and streamline the entire process. It provides standardized workflows for application preparation, internal review, and government submissions, tracking progress until authorization is received.

The module also supports tracking commodity Jurisdictions (CJ), Advisory Opinions (AO), reporting, and other communications with the government. This automation enhances compliance, reduces errors, and boosts efficiency, making it an indispensable tool for modern trade operations.

Global Trade Intelligence

About the Product

Empower your compliance teams with a centralized solution that ensures seamless license application, submission, and tracking—all in one place.

TOP BENEFITS

- Submit applications directly to government agencies with unparalleled ease, where applicable.
- Save time using templates and pre-populated data, utilizing lookups from configurable databases when adding parties and commodity details.
- Enhance collaboration with real-time updates, dashboards and reports.

Streamline Compliance with Advanced Reporting, Robust Security, and Seamless Integration.

The Descartes OCR Global EASE Export/Import License Acquisition module offers advanced reporting, strong security, and seamless third-party integration. Its searchable database includes end-users, product classifications, and destination details for easy license identification. Audit trails, management reports, and dashboards ensure compliance. Security is maintained through Lightweight Directory Access Protocol (LDAP), Security Assertion Markup Language (SAML) 2.0, Single Sign-On (SSO), and 256-bit encryption. It integrates smoothly with Oracle, SAP, ERPs, CRM, and SCM systems.

FEATURES

Electronic Department of State (DOS) Submission Integration

Easily sign and submit Defense Export Control and Compliance System hassle-free.

Comprehensive Department of Commerce (DOC) Licensing Management

Manage DOC Authorizations, CCATS, Export/Re-Export Applications, and Exceptions seamlessly.

End-to-End Compliance Oversight

Streamline licenses, amendments, and applications with a unified solution for compliance.

Advanced Reporting Capabilities

Ensure seamless compliance with database, audit trails, reports, and dashboards.

BENEFITS

Streamlined Workflow Integration

Integrates license apps into workflows, cutting manual tasks and boosting efficiency.

Enhanced Compliance and Accountability

Oversight, validation rules, and dashboards boost licensing compliance and accountability.

Reduced Submission Errors

Electronic submissions and real-time tracking ensure accurate, timely licensing.

Efficient Documentation Management

Export form data to Excel for seamless OFAC submission and efficient documentation.
